

MIDNIGHTBLUE
TECHNOLOGY SERVICES

Managed IT Services. *Always On.*

At Midnight Blue, we know that you don't want to have to think about your network, you just want it to run.

When problems arise, you want to speak to someone who will listen to you and solve your problem quickly – without making you feel like a dunce. Ask any business owner their biggest complaint about IT providers and they're likely to say, "poor service." There are a lot of great techie-type companies out there, but they don't all understand the importance of customer service.

Midnight Blue offers full-service and scalable technology solutions that keep your systems safe, backed up and always running so you can focus on the real mission of your business.

Alleviate the Pain Points—It Boils Down To: Time, Money and Uncertainty

- ✦ Are you currently devoting time and resources to IT that could be better served in other areas of your business?
- ✦ Would you like a solution to all your IT needs without fluctuating rates and constant headaches?
- ✦ Is the security of your data a concern?

Full-Service and Scalable Technology Solutions

An Approach That Won't Leave You Feeling Blue

As a professional services company, your focus is on your customers. You provide them with the best service possible so that your business will thrive. We provide you with the best service possible for the exact same reason...so your business will thrive.

Our focus is on your IT network, so you can stay focused on your business network.

Proactive Maintenance

Continuous remote monitoring prevents, identifies and resolves issues promptly so your business remains uninterrupted.

Predictable and Consistent

Managed solutions keep your network secure and running while keeping your expenses low and always consistent.

Tailored Solutions

Scaled to your specific needs, we offer IT solutions built around your goals and your budget.

Professional and Dedicated

Your dedicated IT manager will know you when you call and will always understand the importance of reliable IT to your business.

Always With You

We understand the impact that downtime has on business. That's why we monitor systems continuously, proactively preventing and identifying issues and promptly resolving them so that your business continues uninterrupted.

Our Managed Services can help you no matter what size or type of business you are. We are able to support, monitor and manage IT infrastructures even in the most challenging of environments. Your dedicated Midnight Blue team members are accessible and responsive. They will be completely familiar with your network and they'll respond quickly to your concerns.

Blue Central Managed Services

Blue Central is a complete package that includes consistent system monitoring and management of your business computer network. Blue Central keeps your network running so smoothly, you'll begin to take it for granted.
